April 1, 2009

Mr. James D. "Buddy" Caldwell, Attorney General
State of Louisiana
Post Office Box 94005
Baton Rouge, Louisiana 70804

Dear Attorney General Caldwell:

Your reply letter under Mr. Seidemann's signature dated February 13, 2009 is written with either ignorance of (or disregard for) certain material information located in the State's own files. If you are interested in sincerely serving the public's best interest at Bayou Postillion, please more fully search the Atchafalaya Basin Program's, State Land Office's, Office of Mineral Resources' and/or your own office files commencing in or about 2000 to-date with seriousness. That would be much more fruitful in this era of increased public "transparency" and accountability than to mechanically respond "**it is now clear that the water quality improvement aims of the project are being met and the project was a success in that regard**".

For you to publicly state on your website that you are "**committed to preserving and protecting the health, safety, welfare and legal interests of all the citizens of Louisiana**" and yet to respond to me that you "**see nothing untoward in the State's conduct in this matter**" is ridiculous coming from someone with your legal standing.

I reiterate, please use the power and authority granted to you by the Louisiana Constitution to protect the public's *legal interests* at Bayou Postillion in the area of land and natural resources. If you are unable to do that, please transmit that responsibility to a party that will truly do so.

Sincerely,

Paul Maclean
