Re: Office of State Inspector General

Dear Mr. Teepell:

Enclosed you will find a letter I received from Mr. Stephen B. Street, Jr., State Inspector General dated March 4, 2008 referencing Case No. 5-08-0003 in addition to my response letter of March 9, 2008. Mr. Street apparently holds the position of Governor Jindal's view on ethics reform in very low esteem.

As you are aware I have offered to provide to the Ethics Transition Committee information and evidence with comprehensive documentation to illustrate the project identified as a "water quality" project was in fact an oil and gas project designed to benefit and gain a select few utilizing substantial State funds.

In addition the interests of the State within and adjacent to a significant oil and gas field was intentionally divested and alienated by various individuals and state employees within that process that was designed to act as a "model" to be repeated throughout the Atchafalaya Basin to the detriment and expense of the State and the Public.

Please advise if you would like to meet either alone or with Governor Jindal to review that material. I look forward to your reply and would be glad to accommodate your schedule regarding an appointment at your convenience.

Sincerely,

Dan S. Collins
